

Killer Conversion Tactics To Maximize Your Profits

Killer Conversion Tactics

Fastest way to go home and make MORE money: **Improve Conversions**

Killer Conversion Tactics

Most business are either:

- **Doing it wrong**
- **Think they are doing it right... but are doing it wrong**
- **Or just not doing it at all**

Killer Conversion Tactics

Audience Survey

- ☒ **Who is currently running an a/b split test on their site RIGHT NOW?**
- ☒ **Who is currently running a multivariate test on their site right now?**
- ☒ **Who doesn't know the difference between a/b split testing and multivariate testing?**

Killer Conversion Tactics

A/B Split Testing:

- **Test new version against control**
- **Best place to get started**
- **IMPORTANT: Only change one element per test version**

START HERE!

Killer Conversion Tactics

Multivariate Testing:

- **Test combinations of multiple elements at once**
- **A test with 3 headlines, with 3 different images with 3 different order buttons would result in 27 different versions**
- **More variables = longer testing period to generate high confidence score**

Adaptive Multivariate Testing:

- **Quickly determines which versions are generating highest response**
- **Eliminates non-performing versions**
- **Dramatically reduces testing time**
- **Still relatively new.**

Killer Conversion Tactics

On A Budget:

1. Google Analytics
2. Google Website Optimizer

Pros:

- FREE

Cons:

- No visitor segmentation or targeting
- No heat map
- No paid support

Killer Conversion Tactics

My Favorite Testing Tools

The Cadillac:

1. **Adobe Sitecatalyst (Formerly Omniture)**
2. **Vertster.com**
3. **ClickTale.com**

Pros:

- **Very detailed and customizable**
- **Visitor segmentation & targeting**
- **Results beyond conversion**

Cons:

- **Pricing models depend on volume**
- **Requires more technical skills to integrate**

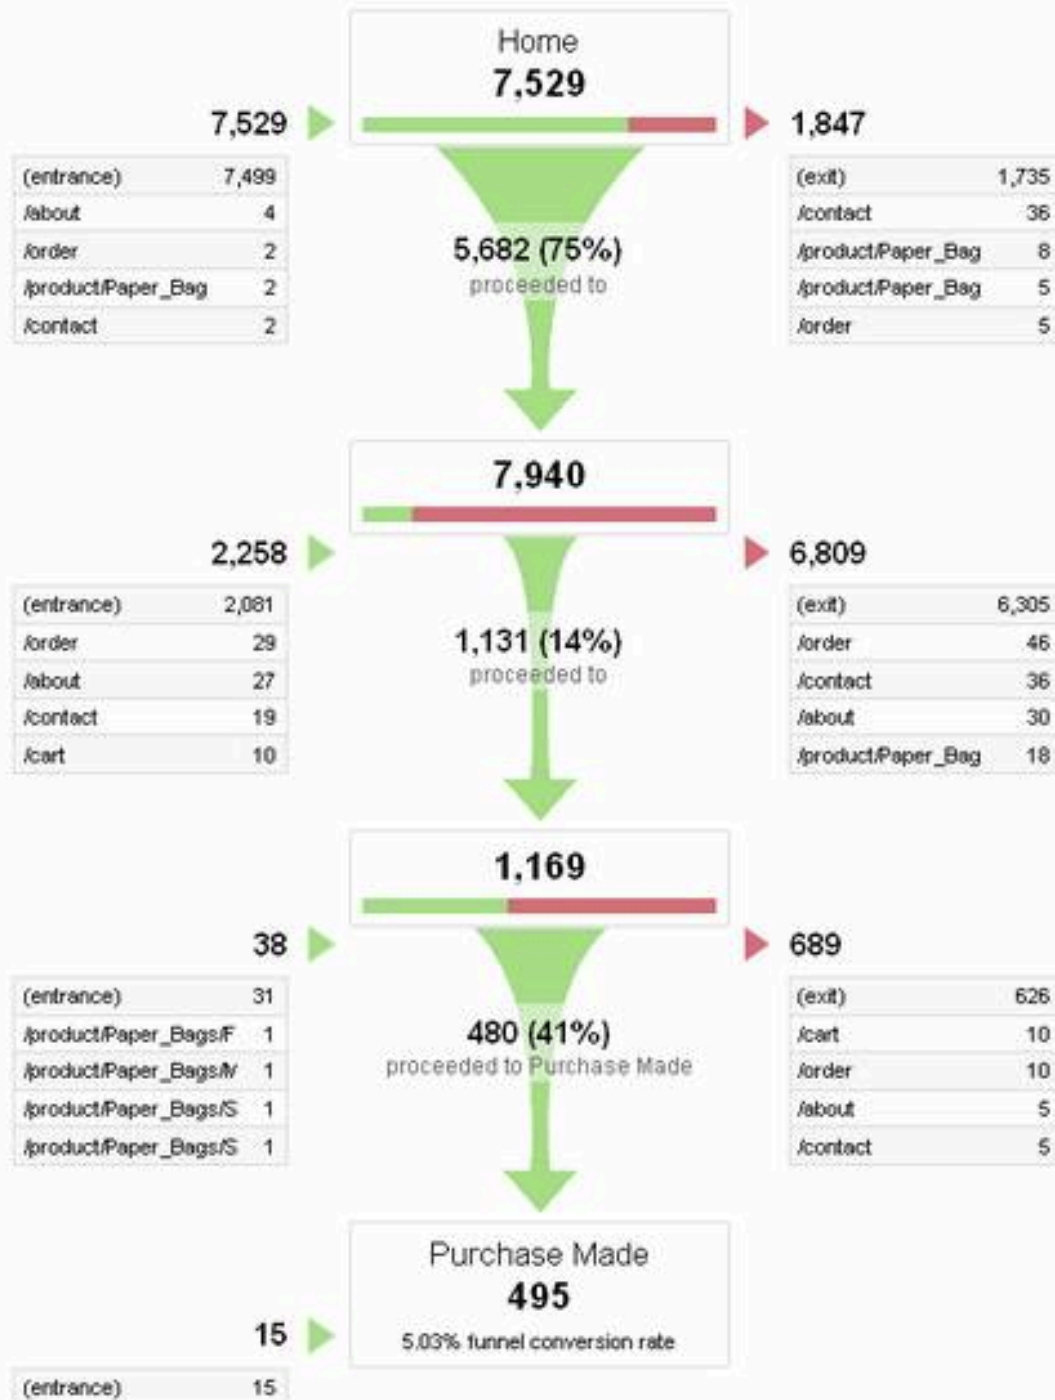

Killer Conversion Tactics

What you should be measuring...

#1: Sales Funnel

**Measure every action
you want people to take!**

Killer Conversion Tactics

Key Testing Metrics:

- ☑ **Conversion (Google Website Optimizer)**
- ☑ **Gross Revenue Per Visitor**
- ☑ **Average Order Value**
- ☑ **Net Revenue Per Visitor**
(Remove COGS: Click cost, commission, product cost)
- ☑ **Most Important: Projected Net Revenue**
(Version A VS B projected for X period)

Killer Conversion Tactics

WARNING: One metric alone does NOT tell the entire story

- **Conversion goes up... but average order value drops and offsets increase to a loss**
- **Conversion drops... but gross revenue per visitor increases resulting in an increase in sales**
- **MIND BENDER:** Gross revenue per visitor increases... but net revenue per visitor drops because the test causes more high cost PPC traffic to convert but reduces conversion of low cost organic traffic. OUCH

Killer Conversion Tactics

CRITICAL: Traffic Segmentation & Targeting

- ☑ **Google Website Optimizer does not do this – MAJOR FLAW!**
- ☑ **Different traffic sources respond very differently to different content (*i.e. organic search traffic responds differently than affiliate traffic*)**
- ☑ **Vertster.com is my favorite**

Killer Conversion Tactics

Deciding what to test:

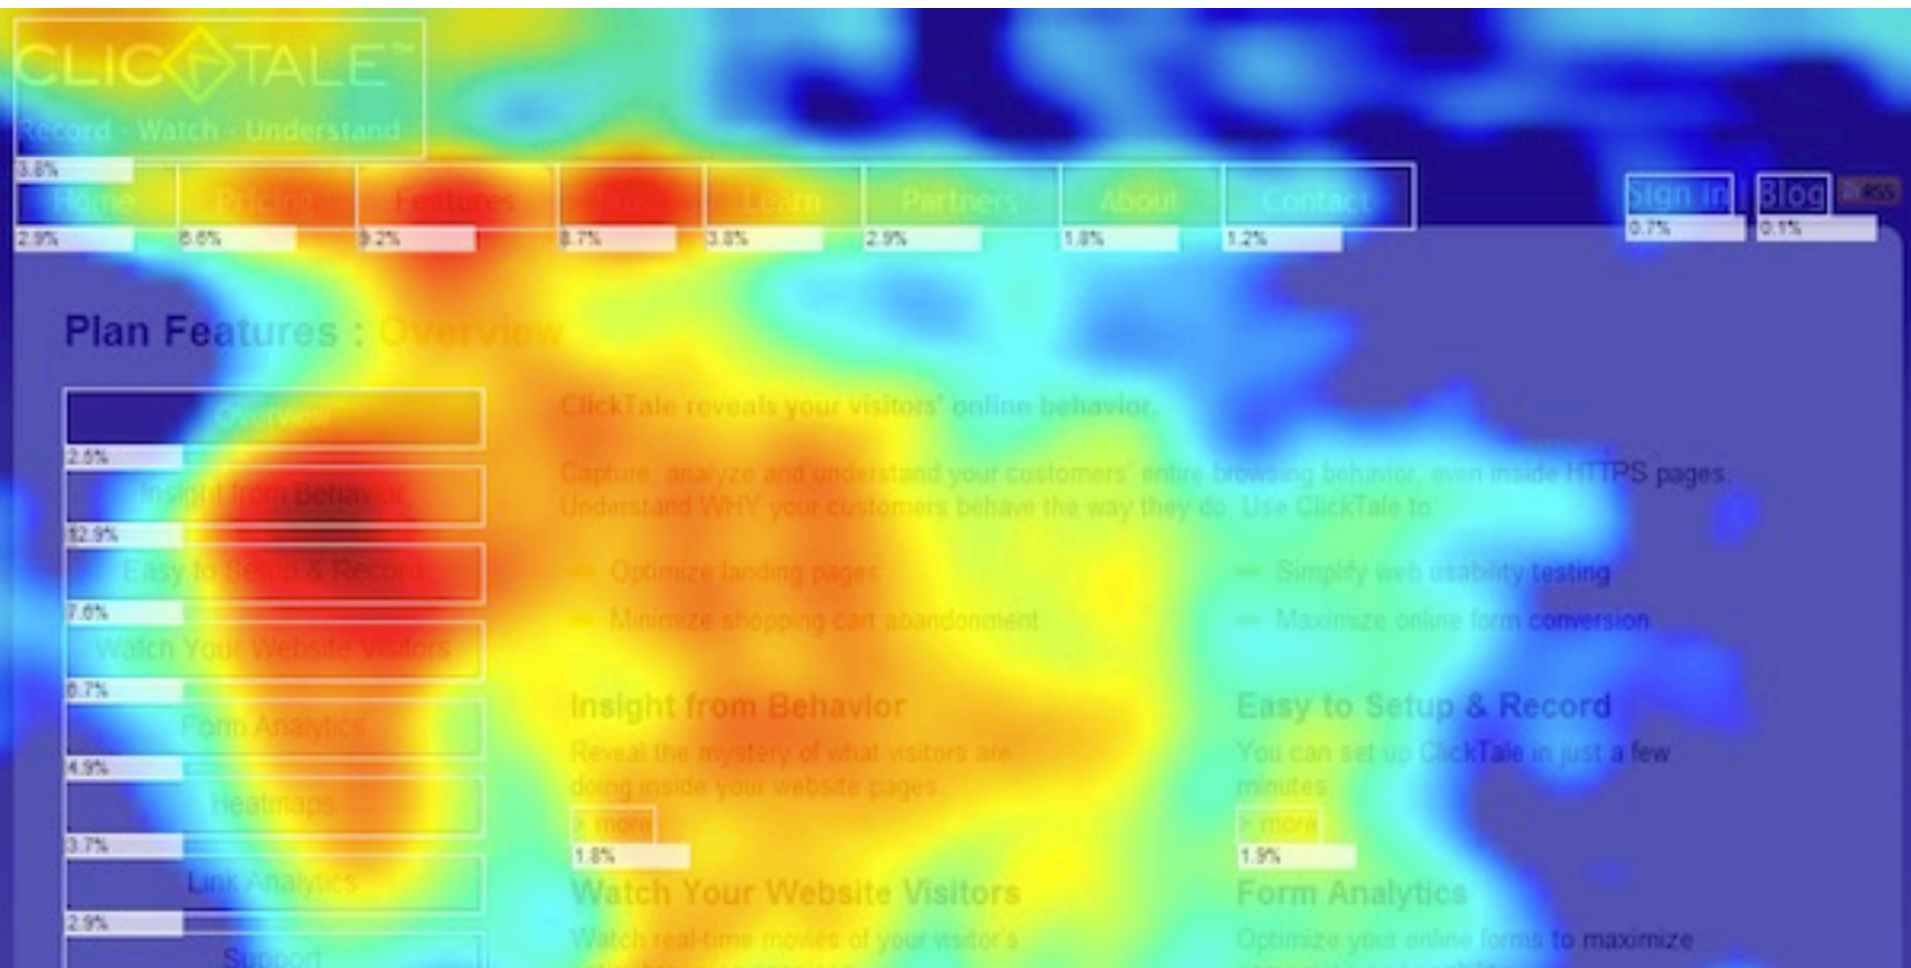

- ✓ **Look for low hanging fruit in your sales funnel**
- ✓ **Review bounce rates on landing pages**
- ✓ **Examine how visitors interact with your site:**

Heatmaps & Click Tracking

Killer Conversion Tactics

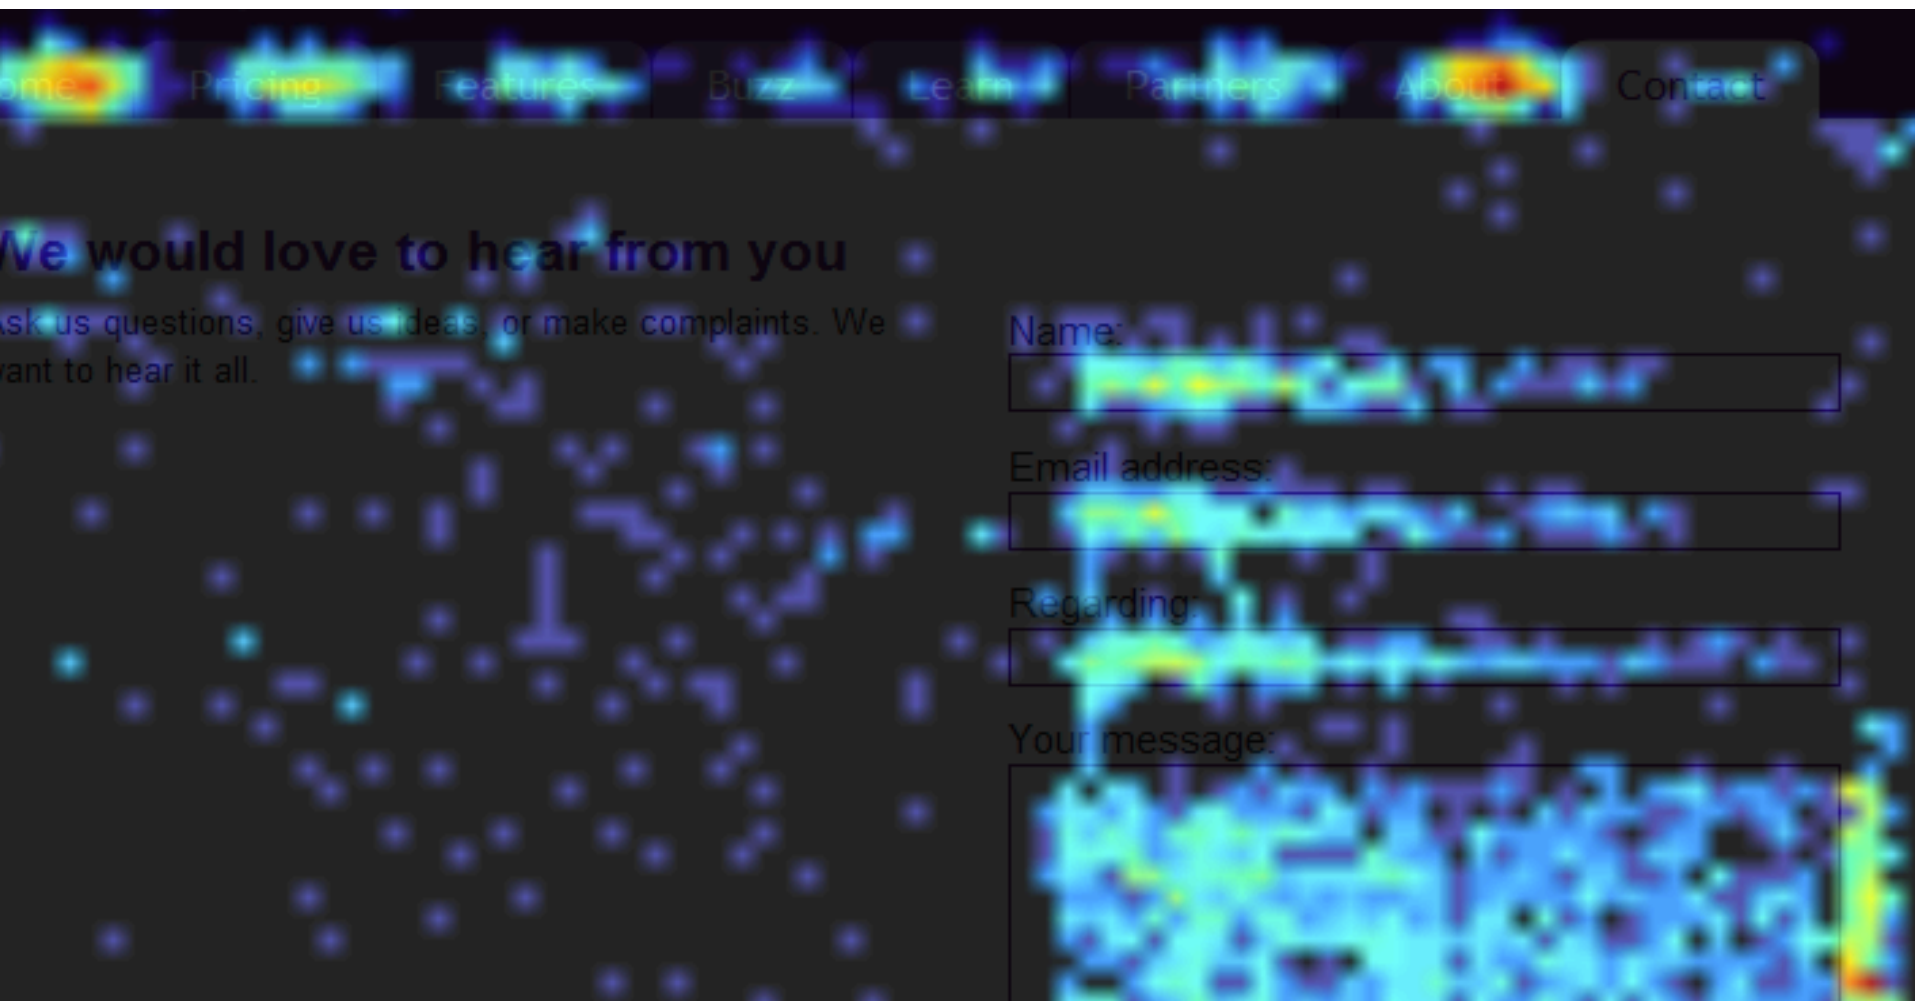

ClickTale.com: Heatmaps (Almost eye tracking)

Killer Conversion Tactics

ClickTale.com: Click Maps (Almost eye tracking)

ClickTale.com: Visitor Recording **(Almost eye tracking)**

- **Watch visitors surf your site – LIVE**
- **Don't make hasty decisions based on just a few visitors**

Killer Conversion Tactics

Testing Ideas...

Will these work on everyone's site?

NO – That's why it's called 'testing.'

Killer Conversion Tactics

Most important part of your website:

First Fold

**Get more of the
right people to stay**

Killer Conversion Tactics

Headline tests:

- ☑ **Target headline to different traffic sources**
- ☑ **Different lengths**
- ☑ **Different benefits & hot buttons**
- ☑ **Different colors**
- ☑ **‘How To...’**
- ☑ **Measurable results**
- ☑ **Negative gets attention**

NOTE: All landing pages regardless of format should have a compelling headline – UNLESS the site is a major recognized brand (i.e. Amazon.com)

Killer Conversion Tactics

First fold split tests:

Video VS Graphical VS Text

(After headline!)

- ☑ **Certain markets respond to different formats**
- ☑ **Graphics can be used to explain simple concepts quickly**
- ☑ **Video works better with ‘warm visitors’ – i.e. affiliate referrals, past customers, subs.**
